

PERMA TURF SURFACING

DISCOVER

Perma Turf is the ultimate playground surfacing solution. It features an SBR (styrene-butadiene rubber) buffering base topped with a specially designed turf that boasts advanced properties, including anti-static yarns, anti-microbial additives, and microscopic reflective pigments for a cooling effect. Available in 55oz., 65oz., and 80oz. face weights, and offered in multiple vibrant colors, Perma Turf provides a safe and durable surface for endless hours of play. Upgrade your playground with Perma Turf and deliver a worry-free, comfortable, and exciting playtime experience for all children to enjoy.
